

Steele Solutions, your space above the floor experts.

Steele Solutions is one of North America's leading manufacturers of structural steel platforms, material handling chutes, and security lockers. We provide consultation, design engineering, fabrication, and delivery, but our services extend beyond those core capabilities to include Project Management and On-Site Field Management—we support you from concept to product delivery and beyond.

With a team of **60+ engineers**, we pride ourselves on product solutions with ingenuity and custom capabilities.

Our **solution-focused designs** keep products and people moving, minimizing congestion and obstacles, and maximizing efficient flow from shelf to delivery truck.

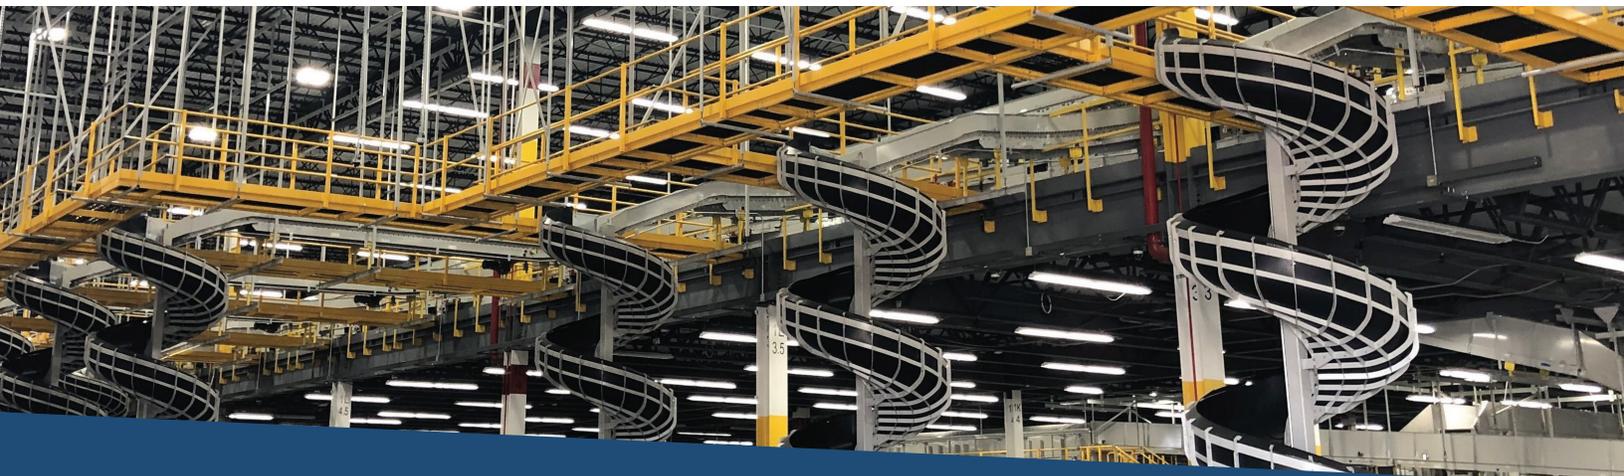

Our products are **exclusively designed to streamline** product picking, packing, and sortation, helping our customers improve speed, efficiency, and accuracy.

100% of our steel products are **manufactured in the U.S.A.**

We deliver products **on budget** and **on time**, with a proprietary installation process that means you get the right parts at the right time.

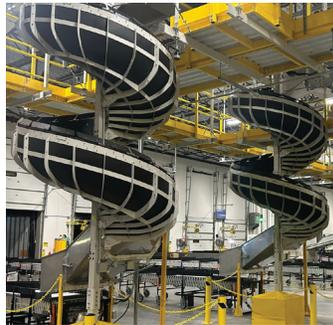

Leading the Way

Structural Platforms

Platform consultation, design engineering, fabrication and delivery.

Material Handling Chutes

The gold standard for custom material handling chutes worldwide.

Secure Storage

A premier manufacturer of lockers for public safety professionals and military personnel.

The Steele Solutions Advantage

We are a solution-focused company. Bring us your most complex problems, and we'll work with you to develop a product solution focused on improving effectiveness and efficiency, no matter the application. With over 400 team members and 800,000 square feet we support projects of all sizes utilizing state of the art design software, CNC beam lines, robotic welding cells and multiple powder coat lines to ensure a reliable on time delivery. We are the safe, smart and integrated choice.
